

Kerry Community Council

Kerry Cemetery Butterfly Garden update 2nd December 2020

Please find detailed below a project update (work has been undertaken by Bridgen Contracting due to Covid 19 restrictions);

- Installed the trellis posts and the flower bed
- Planting and/or positioning of the shrubs
- Bird feeders in place
- The wild flower seeds will be sown next year (March)
- There will also be some ground work to do in preparation for seeds
- Bulbs planted in containers for the winter, to be planted out in early spring
- Approval for Oak Tree to be planted – KCC Meeting 25th November (this may have to be sited in a different part of the cemetery due to root system).

Unfortunately, we did not receive all of the items however Aaron Bridgen (Bridgen Contracting) has self-purchased in order to complete.
